### Elevator Speech

What is the first thing that comes into your mind when I say “Disney”? For most people it’s a place, but for me it’s a feeling. I consider Disney a lifestyle- the best one there is. Although I embody the joy and free-spirit of Disney daily, I am happiest when I go to Disneyland. I go with my best friend nearly every time which makes each experience even better. My favorite part about Disneyland isn't the rides or the food, it is walking down the street and seeing hundreds of smiling faces and knowing you're one of them. There is no better feeling in the world. I feel like a kid; worry free and full of happiness when I think of Disney because it’s been making me feel that way for as long as I can remember. It formed me into who I am today. I owe everything to the feeling Disney gives me because there are no struggles to worry about when you feel Disney.
